## Specialized training for SALMON team

Twenty managers from SALMON Health and Retirement, based in Westborough, recently received training from the National Council of Certified Dementia Practitioners. With their subsequent certification, they join only a few professionals in the area with such background meeting the challenges of serving clients suffering from Alzheimer's disease. SALMON Health and Retirement has become respected for its innovative program for those suffering with memory impairment, The Tapestry Program, offered at their Whitney Place Assisted Living Residences and Beaumont Rehabilitation and Skilled Nursing Centers. For more information about The Tapestry Program and the continuum of care offered by SALMON Health and Retirement, visit [www.SalmonHealthAndRetirement.com](http://www.SalmonHealthAndRetirement.com).
