The Long Term Care Community Coalition

Presents

Dementia Care Without Drugs: A Program for Nursing Home Staff on Key F-Tags, Survey Trends & Achieving Good Care

Understanding legal and regulatory requirements relevant to dementia care and antipsychotic drugging are the building blocks for improving your facility’s compliance and providing good care for your residents.

This program will help you...

◆ Improve facility-wide knowledge and understanding of dementia care and antipsychotic drug use standards.

◆ Fulfill new federal requirements mandating that nursing homes provide annual dementia care in-service training for care staff.

◆ Achieve better preparation for your next survey.

◆ Implement effective Quality Improvement programs.

◆ Meet or exceed federal goals for reducing use of antipsychotic drugs.

◆ Strengthen & support good dementia care practices.

◆ Improve the quality of care – and quality of life – for residents in your facility!

Program rates start at $600 per site. To schedule a program or for more information: Call 212-385-0355 or Email info@ltccc.org. LTCCC is a Certified Sponsor of professional continuing education with the National Council of Certified Dementia Practitioners and International Council of Certified Dementia Practitioners for members holding certifications as CDP, CDCM and CADDCT.
